

## **INSTRUMENTAL TRANS-COMMUNICATION (ITC) NEWS FROM SONIA RINALDI:**

Many of you would know that Sonia Rinaldi is one of the world's leaders in Instrumental Transcommunication- ( [see chapter 5](#) ). Right from the beginning of her work Sonia has had two objectives..to work closely with academic scientists to prove survival after death under controlled conditions and secondly to "provide solace through ITC to those who have lost a loved one, , while keeping in mind that those on the Other Side also suffer the pains and longings for those they left behind." She emailed this week with news of the stunning success her team has been getting in their work re-uniting parents with their "dead" children. She told us about a soon to be published multimedia e-book which will include a project conducted in Sweden with 10 cases of parents that have "lost" their children, with more than 2,000 recordings of paranormal voices, about 800 images and 85 paranormal videos – approximately 600 pages of evidence gathered under controlled conditions. The e-book also talks about the findings by the architect Silvia Rossoni about E.T. images.
